

AkAudio

A new era of music production

Your next project, our next masterpiece!

what is AkAudio?

AK Audio is a music production company that caters to the indie video game industry. We create entire soundtracks and sound effects from scratch using the latest in music editing software and top of the line music libraries. Our partnership extends to anyone who is seeking the assistance of musicians in any type of project other than gaming as well.

we are a team of:

artists

musicians

audio engineers

music educators

classically trained musicians

instrumentalists

composers

music producers

our style?:

cinematic

orchestral

8bit

easy listening

horror

electronic dance

ambient

arcade

contact us!

We are Alex Mars and Caleb Sandoval, and we have years of musical training that qualify us for every composition! Let us take part in your journey to a successful release of that game! Check our website containing a sample library of our compositions.
